

Oaklawn Animal Hospital

Cranston Animal Hospital Sedation Release

Client _____ Patient _____ Date _____

Have you withheld food and water from your pet? YES _____ NO _____

Some procedures, due to discomfort, or patient anxiety or positioning (i.e. radiographs), are best performed with sedation. Sedation helps relieve patient anxiety, allows for proper positioning, and permits mildly uncomfortable procedures to be performed in a humane manner.

My signature on this form indicates that any questions I have regarding the following issues have been answered to my satisfaction:

- **The reasonable medical and/or surgical treatment options for my pet**
- **Sufficient details of the procedure to understand what will be performed**
- **How fully my pet will recover and how long it will take**
- **The estimate of the fees for all services**

I, the undersigned owner or agent of the pet named above, certify that **I am 18 years of age or older** and authorize the veterinarians of Oaklawn Animal Hospital to treat or perform needed procedures on my animal. You are to use all reasonable precautions against pain, injury, or escape of my animal. You will not be held liable or responsible in any manner for unforeseen incidents or accidents caused by the care, treatment, or safekeeping of my pet. It is thoroughly understood that I assume all risks, and that some risks always exist with sedation, including prolonged recovery, injury while sedated, insufficient sedation for the planned procedure, unusual behavior (aggression) while the patient is recovering from sedation, and (very rarely) death due to unexpected heart or breathing problems during sedation.

Financial responsibilities for services are due at time of discharge. I also understand that Oaklawn Animal Hospital, INC. is not staffed 24 hours a day and after hour treatment of patients is at the discretion of the veterinarian.

While I accept that all procedures will be performed to the best abilities of the staff at this hospital, I understand that no guarantee or warranty has been made regarding the results that may be achieved.

Your pet will be checked for fleas while here. For the protection of all pets in hospital if your pet has fleas he/she will be treated with Capstar. Capstar is a fast acting flea treatment that will not interfere with any other flea treatment you may be using. **There will be an additional charge of \$8 if your pet is treated.**
